# INDUSTRIAL & ENERGY SOLUTIONS DIVISION

## **Industrial Automation & Mission-Critical Systems**

Aljabor Global Tech Trade and Services WLL provides mission-critical industrial automation solutions tailored for high-performance and demanding environments. Our Industrial & Energy Division supports oil & gas, manufacturing, power generation, chemical industries, and infrastructure sectors with advanced automation technologies and industrial-grade equipment.

We focus on delivering reliable, energy-efficient, and scalable systems that optimize production processes, improve safety standards, and enhance operational sustainability.

## Mission

To deliver high-performance industrial automation and energy solutions that enhance productivity, safety, and operational sustainability across oil & gas, manufacturing, and power sectors.

## Vision

To be a leading provider of mission-critical industrial automation systems, recognized for engineering excellence, reliability, and advanced technological integration.

## Why Choose Our Industrial Division

- ◆ Extensive experience in oil & gas, manufacturing, and power industries
- ◆ Comprehensive automation offerings including PLC, HMI, drives, and communication systems
- ◆ High-quality industrial-grade products designed for demanding environments
- ◆ Strong global supplier network
- ◆ Turnkey project execution and integration capability
- ◆ Preventive and predictive maintenance services

## Core Values – Industrial Division

- ◆ **Engineering Excellence**  
Delivering technically superior solutions
- ◆ **Operational Reliability**  
Ensuring consistent performance in critical environments
- ◆ **Safety Commitment**  
Supporting safe industrial operations
- ◆ **Innovation & Efficiency**  
Implementing smart automation systems
- ◆ **Sustainability**  
Promoting energy-efficient and environmentally responsible technologies

## Industries We Serve

### Oil & Gas

From upstream exploration to downstream processing, we deliver automation systems including pressure sensors, flow meters, control panels, and monitoring solutions that ensure safe, efficient, and compliant operations.

### Manufacturing

We empower manufacturing facilities with robotics, PLC systems, precision control equipment, and intelligent monitoring technologies that enhance productivity and reduce operational costs.

### Power Generation & Distribution

Our advanced automation systems support turbine control, grid automation, energy monitoring, and smart power distribution systems to ensure reliable and uninterrupted energy delivery.

## Comprehensive Automation Offerings

### Control & Interface Systems

- ◆ HMI Industrial PCs
  - ◆ PLC Systems
  - ◆ SCADA Integration
- Providing seamless real-time automation control and monitoring

### Power & Electrical Solutions

- ◆ Industrial Power Supplies
  - ◆ Power Modules
  - ◆ Circuit Protection Systems
- Ensuring stable and secure power management

### Motion & Drive Technologies

- ◆ Variable Frequency Drives (VFDs)
  - ◆ Industrial Motors
- Delivering precision control, energy savings, and operational efficiency

# Communication & Software Solutions

- ◆ Industrial Communication Modules
- ◆ Automation Software Platforms
- ◆ Smart Monitoring & Data Systems  
Enabling connected, intelligent, and data-driven industrial operations

## Industrial Product Portfolio

- ◆ Industrial Pumps & Fans ◆ Spectrometers ◆ Industrial PCBs & Connectors
- ◆ Communication Modules ◆ Horn Speakers & Amplifiers ◆ Optical Products
- ◆ Energy & Chemical Industry Products ◆ Global Oil & Gas Supplies

## Industrial Services

- ◆ Industrial Automation Integration ◆ Equipment Installation & Commissioning
- ◆ Preventive & Predictive Maintenance ◆ Technical Support & On-Site Assistance
- ◆ Custom-Built Industrial Solutions ◆ Turnkey Project Execution

## Commitment to Industrial Excellence

We are committed to delivering robust, high-performance solutions that meet international industrial standards. By combining global partnerships, engineering expertise, and local market understanding, we provide reliable solutions that drive operational excellence and long-term industrial growth.
